Way down below the ocean where I wanna be she may be,

The story of Atlantis begins with two of Plato's dialogues, Timaeus and Critias. These accounts (*Berichte*) are the only known written records (*Aufzeichnungen*) which refer (*sich beziehen*) to a lost civilization called Atlantis. Many people believe the tale (*Erzählung*) to be complete fiction, the creation of a philosopher's imagination used to illustrate an argument. Others believe that the story was inspired by catastrophic events which may have destroyed the Minoan civilization on Crete and Thera. Still others maintain (*beteuern*) that the story is an accurate (*genau*) representation of a **long lost and almost completely forgotten land**.
